PORTFOLIO OVERVIEW

An End-to-End Digital Marketing Workflow

These four exercises were completed sequentially to build practical, hands-on capability across the full digital marketing stack — from building a client-ready website, to researching how competitors advertise, to producing and optimizing video content, to planning a data-backed paid search campaign. Together they demonstrate the ability to take a small business from “no online presence” to a structured, multi-channel marketing setup.

1
Build the Website

2

3
Produce & Optimize Video

4
Plan Paid Search Keywords

PROJECT 01

Website Development with Wix

Built a home, menu and About Us page for a bakery brand (“Sweet Delights”), wrote business-focused About Us copy, and verified full mobile responsiveness before publishing.

PROJECT 02

Meta Ads Library Competitor Research

Searched a competitor's live ads by category and location, filtered by language/platform/media type, then designed an original ad creative with a matching headline and primary text.

PROJECT 03

YouTube Channel & TubeBuddy SEO

Created a YouTube channel, used TubeBuddy's Keyword Explorer for discoverability, uploaded and titled a video, built a custom thumbnail, and added end-screen and card engagement elements before publishing.

PROJECT 04

Google Ads Keyword Research

Set up a Google Ads account, mined competitor-based keyword ideas in Keyword Planner, applied location/language targeting, and structured the strongest 6 keywords into Broad, Phrase and Exact match types.

Building a Business Website on Wix

Hands-on Exercise No. 1 — Digital Marketing, DigiSkills.pk 2.0, Batch 05

Objective: Take a home-based bakery brand from zero to a published, mobile-ready website — covering account setup, template selection, page structuring, business-focused copywriting, and responsive optimization.

Wix.com

Template Customization

Site Structure

About Us Copywriting

Mobile Responsiveness

- ✓ Created a Wix.com account and selected a bakery-themed homepage template (“Sweet Delights”)
- ✓ Structured the site into Home, Menu and About Us pages via the Site Menu
- ✓ Wrote detailed About Us content covering the brand's story, ingredients and quality commitment
- ✓ Verified and adjusted the layout for full mobile-device responsiveness before publishing

Create a home page, menu page and about us page.

Task 4:

Customize the "About Us" page and provide detailed information about business and the quality of their product

Task 5:

Home page build + About Us page with business copy

Optimize the website to ensure full responsiveness and compatibility with mobile devices.

Meta Ads Library Research & Ad Creative

Hands-on Exercise No. 2 — Digital Marketing, DigiSkills.pk 2.0, Batch 05

Objective: Investigate how a real competitor (Gul Ahmed) runs its Meta ads, then apply those insights to design and write an original ad creative for a men's fashion "Summer Sale" campaign.

Meta Ad Library

Competitor Analysis

Ad Filtering

Ad Creative Design

Headline & Copywriting

- ✓ Searched competitor ads in the Meta Ad Library by category and location (Pakistan)
- ✓ Applied filters for language, platform, media type and date range to isolate relevant ads
- ✓ Designed an original ad creative — "Mirmayk Summer Sale" — for a kurta/shalwar-kameez collection
- ✓ Wrote a headline and primary ad text focused on the seasonal collection's appeal

Final ad creative with headline & primary text

YouTube Channel Setup & TubeBuddy Optimization

Hands-on Exercise No. 3 — Digital Marketing, DigiSkills.pk 2.0, Batch 05

Objective: Launch a YouTube channel for an online learning brand (“eLearnHub”), use TubeBuddy’s discoverability tools, and publish a fully optimized video with a custom thumbnail and audience engagement elements.

YouTube Studio

TubeBuddy

Keyword Explorer

Thumbnail Design

End Screens & Cards

Video Publishing

- ✓ Created the “eLearnHub” YouTube channel and installed/signed into TubeBuddy
- ✓ Uploaded a video with an SEO-considered title and description
- ✓ Built a custom thumbnail from scratch using TubeBuddy's Thumbnail Generator
- ✓ Added a Subscribe end-screen element and a channel card to drive engagement
- ✓ Completed visibility checks and published the video publicly

Channel creation + TubeBuddy Keyword Explorer

Subscribe end-screen, channel card & publish flow

Google Ads Keyword Research & Campaign Structuring

Hands-on Exercise No. 4 — Digital Marketing, DigiSkills.pk 2.0, Batch 05

Objective: Build a data-backed keyword plan for an IELTS academy in Lahore — from competitor-based discovery through to a match-type-structured campaign ready for launch.

Google Ads
